The “Zero Energy” Dallas Parade of Homes Project Selects Aquarius Laser Etching and Design

Woodland, CA (August, 18 2004) – Dallas’ top builders and designers have chosen Aquarius Laser Etching and Design as a product participant for the first “Zero Energy” home in North Texas. The home will be featured at the 13th annual Dallas Parade of Homes®. Cedar Hill Design has chosen to feature both custom glass and marble etchings from Aquarius Laser Etching to enhance the overall beauty of this showcase home. Dallas’ premier home tour will be held at Lone Star Ranch September 4 – September 26, 2004 in Frisco, TX.

“It is very exciting to be a part of the “Zero Energy” home project. We are honored to be included in the process of making this home unique for its functionality and design. Our artistic stone and glass etchings will help showcase how a product can be functional, practical, and yet beautiful at the same time.”

Aquarius Laser Etching and Design creates custom artistic stone installations for residential and corporate environments using laser technology to etch images into polished stone. Aquarius’ pieces are created for use as murals, backsplashes, fireplace surrounds, flooring, logos and signage, as well as personal photographs and mementos. Designers or homeowners can replicate or custom design either black and white or full color images and have them etched permanently into marble, granite, travertine, glass, slate and many other substrates.

To view the Aquarius portfolio or to find out more information about Aquarius Laser Etching and Design, please visit www.aquarius-laser.com or call (530) 666-3989.
